Tammam Mabroukeh
Full (MERN) Stack Developer

As a MERN stack web developer with expertise in Nest.js, Node.js, Next.js and React.js, I am driven by my passion for designing appealing interfaces and backend apis. I worked as a freelancer. I have honed my programming skills in languages like JavaScript and Typescript. My exceptional communication skills are an added asset to my profile.

Work Experience

Ugarit Technologies LTD, Syria (April 2025 - Present)

Frontend Engineer - Full Time (On Site)

- Responsible for implementing the company`s projects (Landing pages – Dashboards) and clients projects using different technologies (Next.js, React.js, typescript, redux, zustnd, i18next, next-themes, tailwind, Shadcnui, react-query, formik, yup, react-dropzone, react-hook-form, zod, and more.

Teams-Management, Freelancer (Jan 2025 - March 2025)

Full Stack Engineer - Full Time

- I created a Full stack B2B Project Management System with Node.js, MongoDB, Express and React. I used a lot of features like Google Sign-In, workspace management, project management, task CRUD, role-based permissions, invite system, filters, search, analytics, pagination, and more.

LMS-project, Freelancer (Sep 2024 – December 2024)

Full Stack Engineer - Full Time (Remote)

- I was responsible for building the learn management system(LMS) to educational institute using React.js 18 library, Node.js, Express, MongoDB and integrate with Rest api.

Scripts Ocean, Turkey (May 2024 – Aug 2024)

Frontend Engineer - Part Time (Remote)

- Responsible for implementing the company`s project using different technologies (Next.js 14 tailwindcss, nextui, next-auth, framer-motion, next-safe-action.

Mad Solutions, Jordan (June 2023 – December 2023)

Frontend Engineer - Full Time (Remote)

- Responsible for implementing the company`s client project using different technologies (React.js, Material ui, Css3, context api, react-dropzone, and more)

Languages

Arabic: native
English: Intermediate

Working

I have worked at Ugarit technologies LTD company as Front-End React.js & Next.js developer.
I worked at Scripts Ocean company as Front-End Next.js & React.js developer.
I worked at Mad Solution company as Front-End React.js developer

Programming Languages:
JavaScript: Intermediate (2 years)
TypeScript: Intermediate (2 years)

Frameworks, and services:

For Frontend:

Design:

nextui - shadcnui. - TailwindCss toast. - React-Bootstrap. – Mui swiperJS. - tailwindui - blurhash Headlessui. - skeleton. lottie-files. – framer-motion

Logic:

Next.js 14 - React 18. - Redux - Redux-Toolkit. - Redux-persist. - next-intl - react-table - typescript

Personal Projects

Food delivery Project (August 2024)   **Project Link on github**

Food delivery project I built it using React.js, Node.js, Express, MongoDB and typescript. The project represents a food order delivery site, which contains several powers, in addition to an electronic payment mechanism. I used a lot of features like cloudinary, mailtrap, stripe, multer, axios, zustand, shadcnui

Technotes Project (August 2024)   **Project Link on github**

Technical notes site, built in with Nod.js, Express, MongoDB and React.js. The user logs in and adds a technical note or question for the employee to answer. The site contains several permissions (user, employee, admin), I used a lot of features like Redux-toolkit, jwt-decode, typescript, mongoose…

TSP Project (Apr 2024)   **Project Link**   **Code**

This project about the traveling salesman algorithm. It takes income from the user, representing the capacity of the trucks that will distribute the items and the value of each item, in addition to the city to which the item will go, as well as the distance between all cities, and then the algorithm distributes the trucks to the goods in the optimal way, using (Next.js, TailwindCss, typescript, react-hook-form, react-graph-vis, flask, Rest api).

Netflix Website (Mar 2024)   **Project Link**   **Code**

A site similar to Netflix, where the user logs in using Google, GitHub, or email. It contains many movies, displaying the trailer and information for each movie, with the ability to add the movie to favorites and add it to the user list, using (Next.js, TailwindCss, shadcn, prisma, supabase, next-auth, typescript).

Courses

-The complete guide of React.js development on Udemy.

- mern-stack-using-react-redux-node-js on Udemy

-pro-frontend-engineer-reactjs-typescript-redux on Udemy.

-Many courses on YouTube.

Certificates

ICPC: I participated in the 2023 programming competition.

Education

Syrian virtual University(SVU) (2021 - present)

Bachelor of technology   -   Grade: 83% (Excellent).

---

next-auth   -   zustand
rtk-query - next-safe-action

Validation:

react-hook-form, - resolvers
Formik - Yup - zod

API:

Axios - zod-fetcher - react-query

Other:

lucide-icons - heroicons - EmailJs

For Backend:

Nest.js - Node.js - express.js - cloudinary, mongodb, mongoose - firebase , jsonwebtoken , i18n typescript - bcryptjs , express-fileupload , third party libraries (cookie-parser, cors , body-parser dotenv)

Core skills:

- React.js 18.
- Next.js 14.
- Node.js.
- Nest.js

Tools:

- Git, Gitlab and Github.
- NoSQL.
- AI Tools

Soft Skills:

- Problem solving
- Communication skills
- Time Management
- Research
- Teamwork skills
